

Stay home. Work safe.

Thank-you for purchasing Handy Desk – we hope that it makes this ever-changing world just a little bit easier.

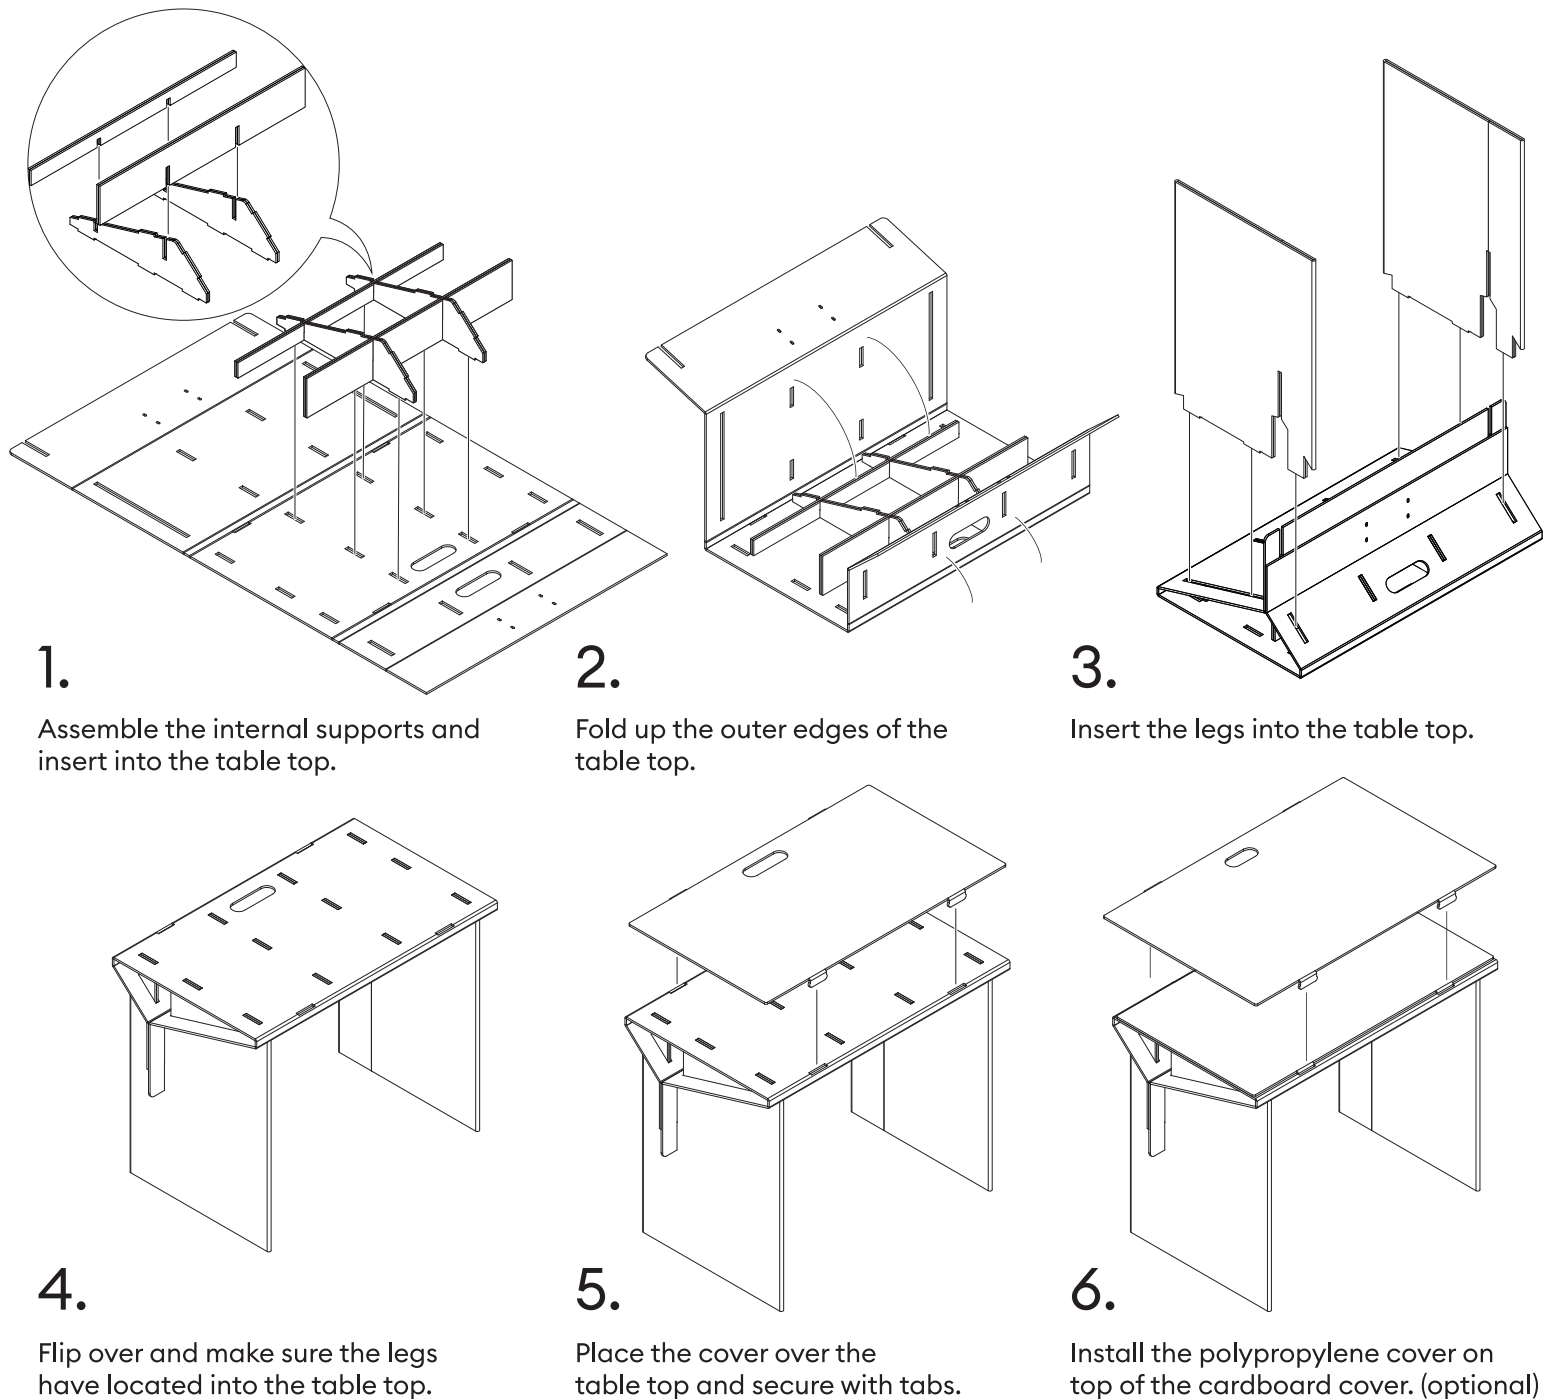

When this is all over, pack that desk up, ride it down the staircase and hug your loved ones (if you still love them). Have a party, become a close talker and enjoy life.

Show us your desk set up and tag us @handydesk #stayhomewithhandydesk

Made in Australia

1.

Assemble the internal supports and insert into the table top.

2.

Fold up the outer edges of the table top.

3.

Insert the legs into the table top.

4.

Flip over and make sure the legs have located into the table top.

5.

Place the cover over the table top and secure with tabs.

6.

Install the polypropylene cover on top of the cardboard cover. (optional)

Note: When you are finished with your handy desk you can dismantle and it will perfectly slide under the bed or in one of those weird spaces in the cupboard that isn't quite big enough for anything else! As a last resort if you do have no use for the Handy Desk you can put it in the recycling bin then fight with someone about who will take the bins out.
